## REFRIGERATOR ICED CARS

FOR

## GREEN PEAS

IN THIS SECTION OF THE COUNTRY

THIS will make his third season using these cars. They have given the shippers extra good returns for their shipments, whereas nothing was derived from these shipments several years before using them.

He has engaged (100) cars for the shipments of peas this season. All these peas will be received at the same place as for the past two years. But he has made arrangements with the railroad company to load all Irish potatoes at his warehouse (the old Suffolk & Carolina Depot), which will save shippers a long haul and a great deal of delay as in years before.

### LET ABBOT MARKET YOUR PEAS AND POTATOES

This promises to be a consignment year. Buyers are not likely to make the scramble for produce this season that they made last season. You've got to watch the selling end closer this season. Connect up with an experienced shipping agency with old established connections. It pays in the long run.

I have never tied to any one or two houses and the old true and tried commission merchants with whom I have dealt for a number of years are the best on their respective markets.

I have strong, steady and reliable outlets for everything you will produce this year and believe it will be more than ever to your advantage to get in touch with me early.
